# A Plan to Meet Everyone's Needs

**We** want to make sure the best dental care for your child is available to you. This is why we've designed our own savings plan to help our patients' families save hundreds on annual dental expenses. Unlike traditional insurance plans, our family savings plan allows complete flexibility. There are no deductibles, no yearly maximums, no claim forms or confusion, no age limits, and no waiting periods. In short, we've taken all the headaches out of your child's dental care. This is a perfect solution for families without dental insurance or who do not have dental insurance benefits with the office.

**On top of preventive services,** if your child requires additional treatment, such as white fillings, crowns, extractions, space maintainers, etc., our plan extends a 10% discount.

## A perfect solution for families and individuals without dental insurance

	Child under 7	Child 7-14	Child over 14	Child in braces <i>OR for patients who need more frequent care</i>

**We accept cash, personal checks, and all the major credit cards!**

*"The staff and Doctors at Newburyport Pediatrics are like family to us. They have cared for our 5 children with love and patience and the utmost of care. Our youngest had many dental issues due to poor growth and the staff guided us (and him) back to excellent dental health. They have continued to keep all of my children on a healthy path of dental hygiene which will last their whole life long."*
